

DO105001

5 beams source 12V/55W

Lighting source.

School level

Senior high school.

Technical features

Black metallic box with 5 parallel slits
Lateral ventilator and air intakes
2 magnetic covers
Lighting source: halogen bulb 12V 55W
Power supply: 12V (*not included*)
Magnetic sole
Adjustment rod for beams precision
Weight: 1.200 kg
Dimensions with rod: 200 x 87 x 120 mm
Packaging: individual box.

Lateral ventilator and air intakes

Product advantages

- **No overheating** with ventilator and air intakes.
- **Beams switched** thanks to magnetic covers.
- Magnetic sole for **uses on magnetic board**.

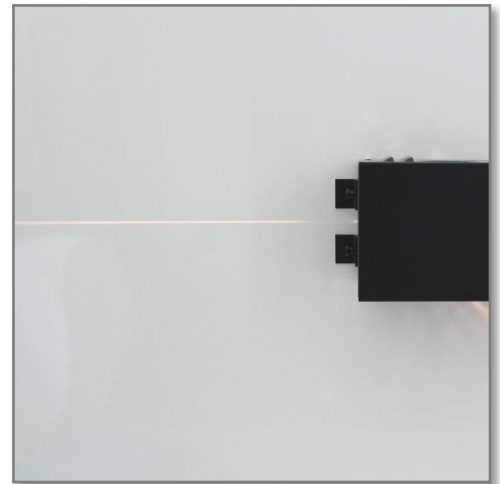

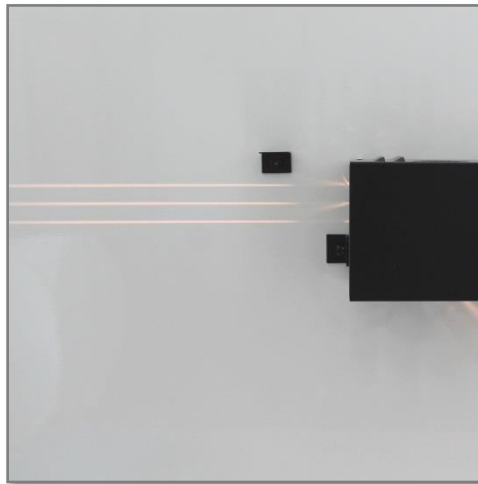

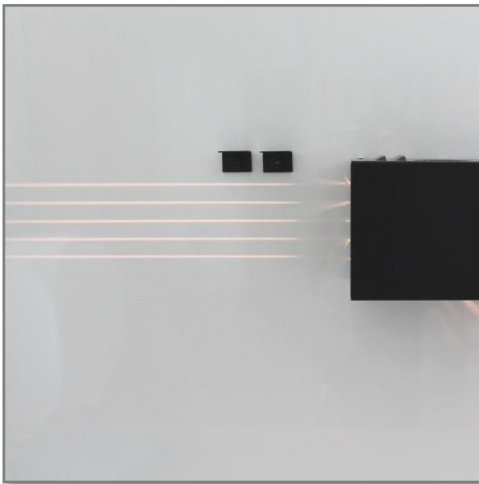

Examples of experiments

- Geometrical optics principles.

Associated products

Suitcase of magnetic lenses – **DO104022**
Erasable magnetic board 600x900 – **DM230024**
Power supply 6 - 12V 100VA – **DE100002**

EXPERIMENTS

Beams switched with magnetic covers

Use on magnetic board with magnetic lenses
