

DO115018

6 simple slits slide

Slide to study diffraction.

School level

Senior high school.

Technical features

- Film set on a slide
- Figures obtained by flashing method
- 6 simple slits with gap: 0.04 / 0.05 / 0.1 / 0.12 / 0.28 / 0.4 mm
- Tolerance +/- 10%
- Dimensions: 50 x 50 mm
- Packaging: sachet of 25 units for a reference

Product advantages

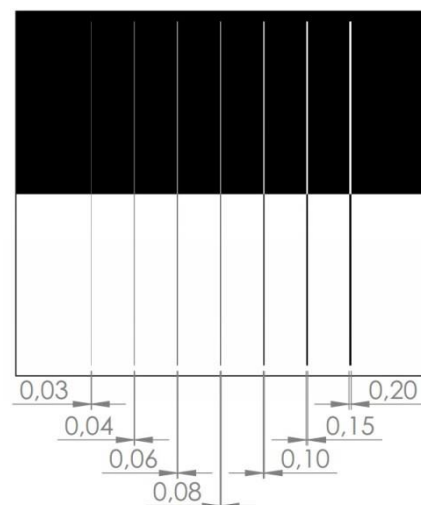

- Easy to identify: serigraphy.
- Different diffraction figures on a same slide.

Examples of experiments

- Light diffraction.

Associated products

- Prismatic optics bench premium – **DO106023**
- Senior optics bench – **DO106003**
- Laser TRIO red – **DO108015**
- Laser TRIO green – **DO108016**
- Diffraction suitcase- **DO115021**
