

DO115022

## 7 slits and 7 lines slide

Slide to study diffraction.

### School level

Senior high school.

### Technical features

Film set on a slide

Figures obtained by flashing method

7 slits and 7 lines with width : 0.03 / 0.04 / 0.06 / 0.08 / 0.10 / 0.15 / 0.20 mm

Tolerance +/- 10%

Dimensions: 50 x 50 mm

Packaging: sachet of 25 units for a reference

### Product advantages

- Easy to identify: serigraphy.
- Different diffraction figures on a same slide.

### Examples of experiments

- Light diffraction.
