

DA102008

## Cap with 2 Nickel electrodes

Accessory to study the redox phenomenon.

### School level

Senior and junior high schools.

### Technical features

2 nickel electrodes on rubber cap

Dimensions:  $\varnothing$  2 x 50 mm

Weight: 50 g.

Packaging: individual.

*Electrolyser with cap with platinum electrodes*

### Product advantages

- Easy interchangeability of electrodes.

### Associated products

Electrolyser with interchangeable electrodes - **DA102001**

Electrolyser with Platinum electrodes - **DA102007**

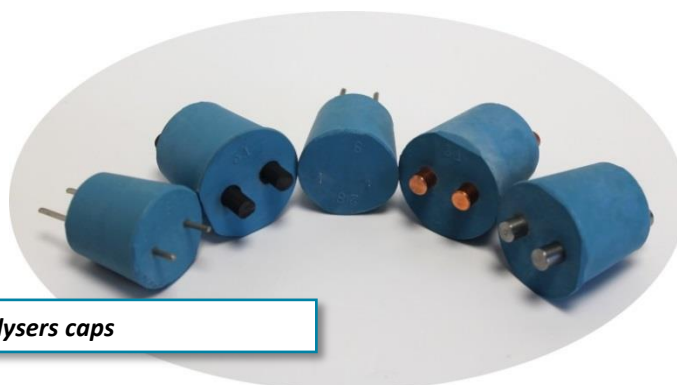

Electrolyser with Nickel electrodes - **DA102006**

Cap with 2 Carbon electrodes - **DA102016**

Cap with 2 Copper electrodes - **DA102013**

Cap with 2 Platinum electrodes - **DA102009**

Cap with 2 Iron electrodes - **DA102019**

*Range of electrolysers caps*
