

DM231008

Dynamometer peson 10N

Device to measure 10N force.

School level

Junior and senior high schools.

Technical features

Tube with square shape 16x16mm in transparent plastic

Aluminium rod set on spring

Black graduations

Force: 10N

Colour: blue

Dimensions excluding hook: 65 x 16mm

Weight: 20g

Packaging: sachet.

Dynamometers peson

DM231005	Dynamometer peson 1N
DM231006	Dynamometer peson 2N
DM231007	Dynamometer peson 5N
DM231008	Dynamometer peson 10N

Product advantages

- Graduation **easy to see.**
- **Use on magnetic board** with magnetic support.
- **Colour code for every force.**

Examples of experiments

- Study of moments and forces.
- Hook law.

Associated products

Magnetic support for dynamometer peson – **DM230022**

Erasable magnetic board 600 x 900 – **DM230024**

MECAPRO suitcase – **DM233008**

Batch of 10 caps for magnets – **DM230026**

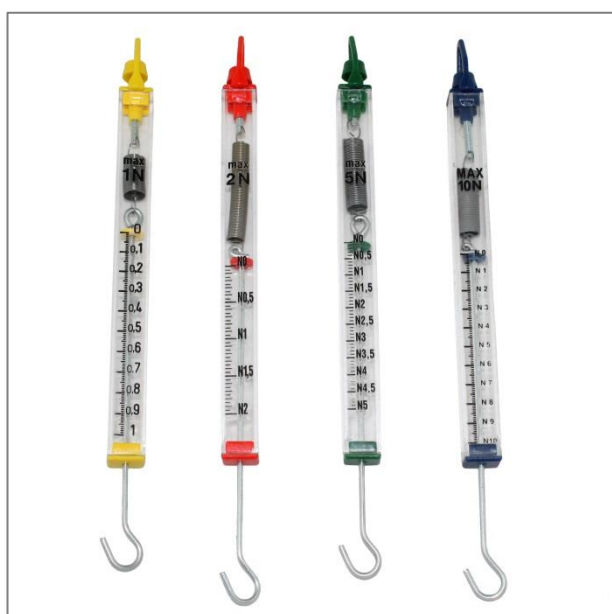

Batch of 11 hook masses – **DM232007**

EXPERIMENTS

Use on erasable magnetic board with magnetic supports

Magnetic support for dynamometer peson
