

DE110001

Electromanipulations plate

Device to study electrical circuits.

School level

Junior and senior high schools.

Technical features

- White ABS closed box with black serigraphy
- 15 poles with a 38mm gap
- Connections by brass plates
- Security sockets $\varnothing 4$ mm
- 4 rubber feet
- Max. power supply: 24V AC or 40V DC
- Dimensions: 285x170x50 mm
- Weight: 620 g
- Packaging: individual box.

Product advantages

- Secured connectors.
- Box in ABS resistant and light.

Examples of experiments

- Study of electrical circuits.

Associated products
