

DO105023

HEXALU source

Lighting source with LED on aluminium rod.

School level

Senior high school.

Technical features

Black aluminium casing with hexagonal shape
Aluminium rod $\varnothing 10$ removable
Lighting source: LED 3W
Condenser: 2 lenses $\varnothing 40$ F+100
Ventilated
Power supply included
Longitudinal adjustment rod
Weight: 330 g
Dimensions with rod: 225 x 95 x 220 mm
Packaging: individual box.

Included power supply

Product advantages

- **Excellent price-performance ratio.**
- **Easy to use:** light and easy to handle.
- **Precise:** adjustment rod for a precise focusing.
- **Protection against overvoltage and polarities inversion.**

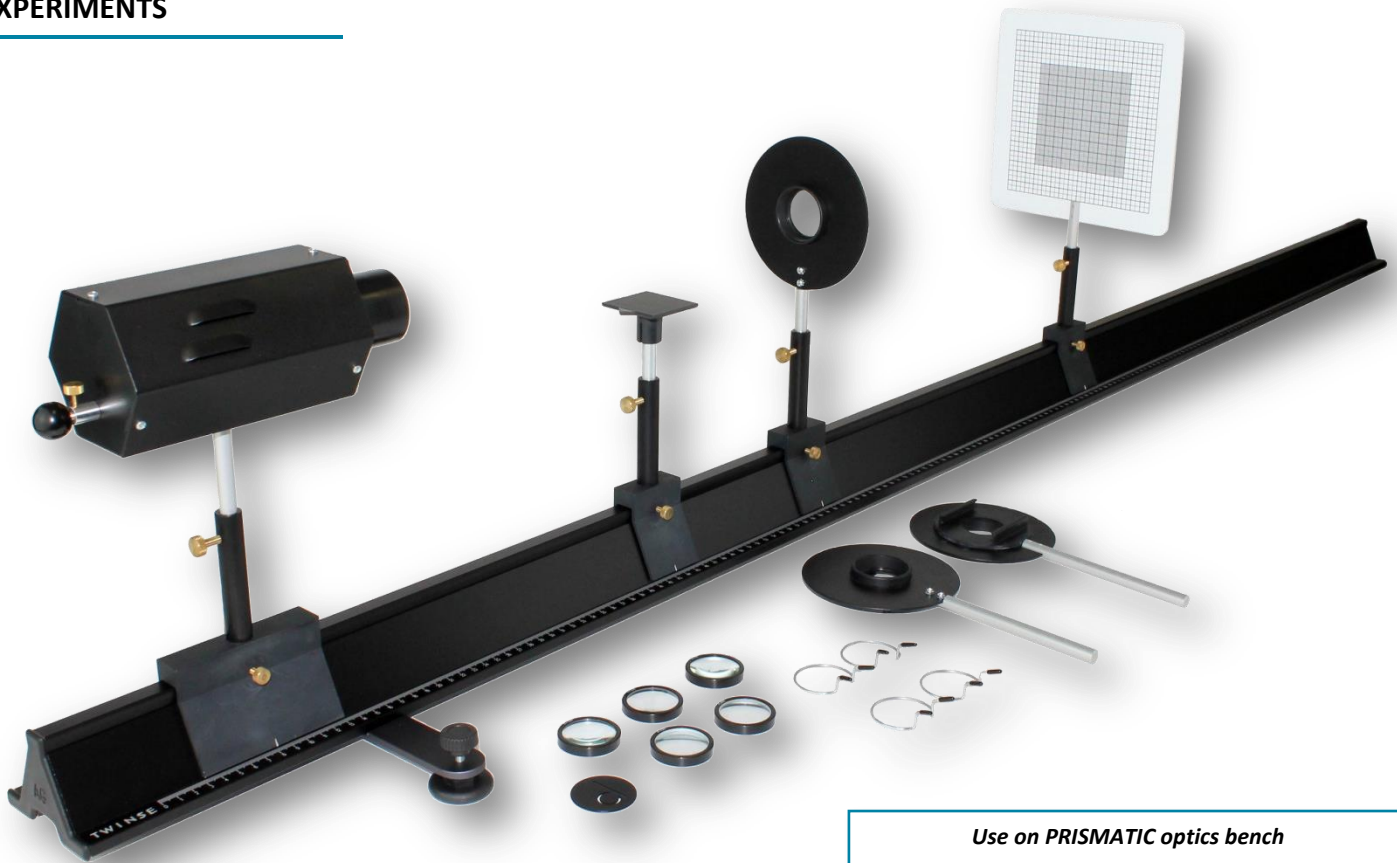

Examples of experiments

- Focometry.
- Decomposition of light.
