

DM230020

Hook on magnet

Accessory for mechanical assembly on magnetic board.

School level

Junior and senior high schools.

Technical features

- Hook on axis $\varnothing 4 \times 35\text{mm}$
- On magnet $\varnothing 45 \times 8\text{mm}$
- Dimensions: $45 \times 45\text{mm}$
- With protection cap on magnet
- Weight: 80 g
- Packaging: box of 15 pieces.

Product advantages

- Strong adhesion.
- Do not scrape the metallic board.

Examples of experiments

- Study forces and moments on magnetic board.
- Sum of forces.

Associated products

- Batch of 10 caps for magnet – **DM230016**
- Erasable magnetic board 600x900 – **DM230024**
- Erasable magnetic board 600x400 – **DM230025**
- Undefined form on magnet – **DM230023**
- Circular dynamometer 1N – **DM231001**
- Circular dynamometer 2N – **DM231002**
- Circular dynamometer 5N – **DM231003**
- Circular dynamometer 10N – **DM231004**
- Suitcase MECAPRO – **DM233008**

Included in the MECAPRO suitcase
