## INITIAL lens-slide holder

Support on rod  $\varnothing 10$  for lenses and slides.

### School level

Junior and senior high schools.

### Technical features

Accessory for INITIAL optics bench  
Black disk  $\varnothing 80$ mm in plastic on rod  $\varnothing 10$ mm  
1 face for lenses  $\varnothing 40$ mm (by supporting ring)  
1 face for slides 50x50mm (by sliding)  
Clip to clamp included  
Dimensions: 115 x 80 x 25 mm  
Weight: 25 g  
Packaging: individual sachet.

### Product advantages

- **Double use of lenses and slide** without moving support.
- **Optimal budget:** 2 supports in only one product.

### Examples of experiments

- Focometry study (measure of a focal distance).
- Diffraction study.
