

DO108019

Kit geometric optics with multibeams red and green laser

Magnetic accessories and 5 beams laser for optics experiments.

School level

Junior and senior high schools.

Technical features

- 1 multibeams laser red and green (1-3-5 beams)
- 1 power supply 5V-600mA included
- 14 magnetic lenses
- 1 magnetic mirror
- 7 erasable boards 250x350mm
- Human eye, camera, optical disk, grid,
- Galilean telescope, Keplerian telescope, Newton telescope.
- 4 magnets $\varnothing 32.6\text{mm}$
- 1 erasable pen
- 1 suitcase with protection foam
- Weight: 1.600 kg
- Dimensions: 370x310x80 mm
- Packaging: suitcase.

Product advantages

- Different optics experiments **in one product**.
- **Quick storage**.
- Included in the range **"KITS GEOMETRIC OPTICS"**.

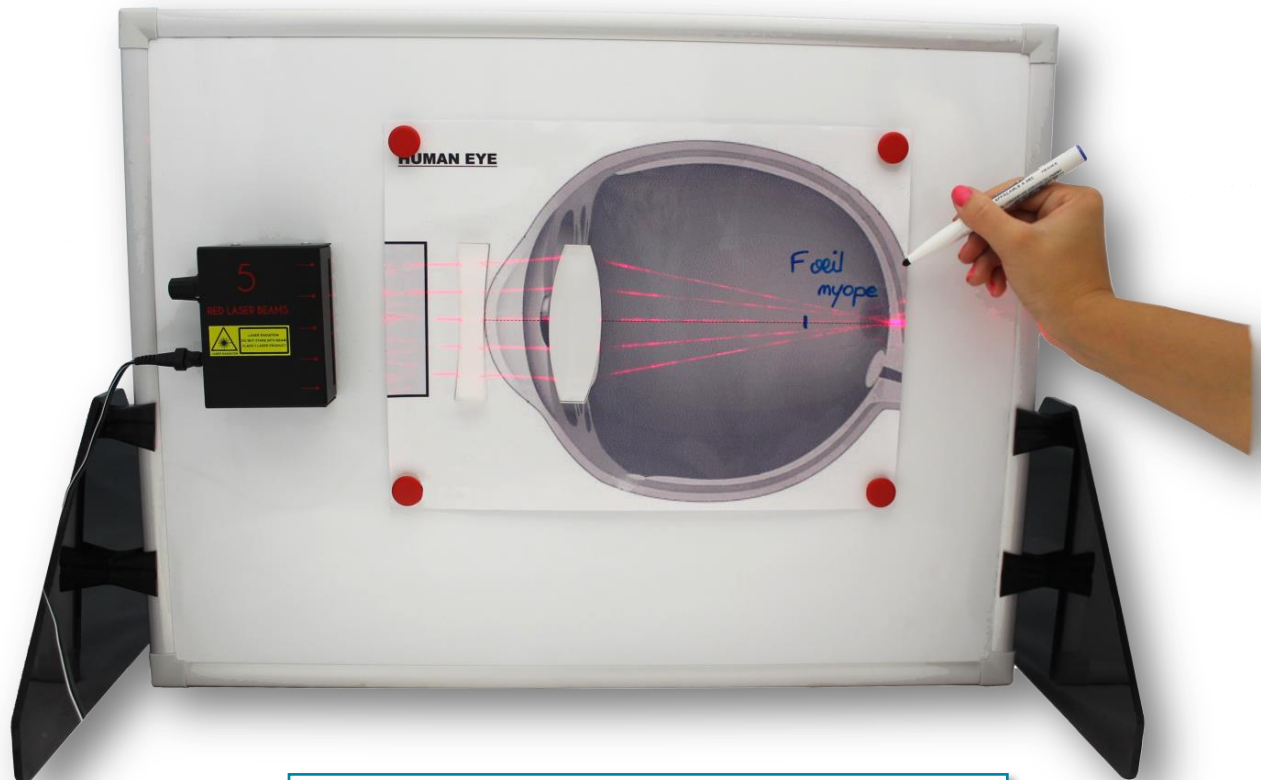

Examples of experiments

- Eye study, reflection refraction, geometric aberration, optics instruments.

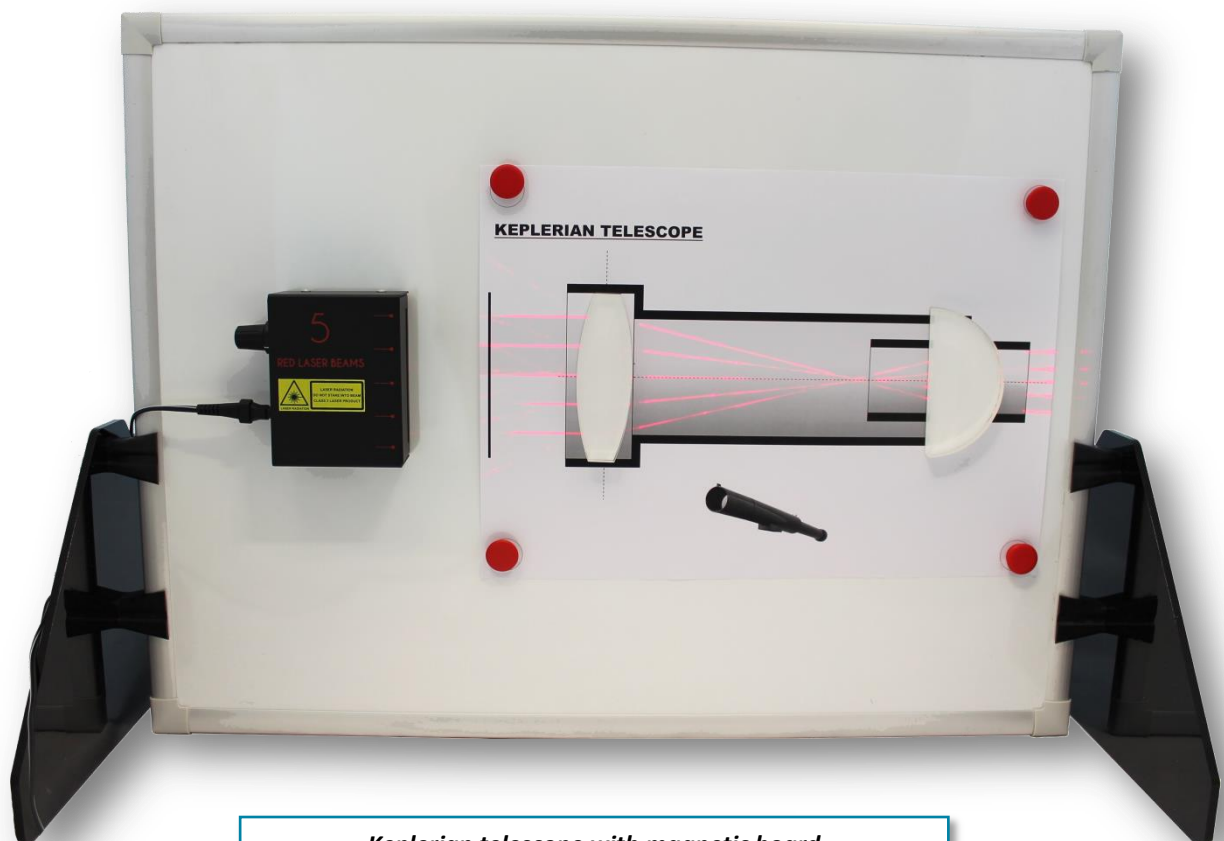

Associated products

Erasable magnetic board 600x400– **DM230025**

EXPERIMENTS

Eye study with magnetic board

Keplerian telescope with magnetic board
