

DO103005

Magnetic kit eye

Magnetic accessories for optics experiments.

School level

Junior and senior high schools.

Technical features

- 5 magnetic lenses
- 100mm high and thickness 10mm
- 1 erasable board A3 of human eye
- 4 magnets $\varnothing 32.6\text{mm}$
- 1 erasable pen
- Weight: 0.400 kg
- Packaging: individual box

Product advantages

- **Quick demonstration** of the eye experiment.
- **Easy storage.**

Examples of experiments

- Eye study.

Associated products

- Erasable magnetic board 600x400 – **DM230025**
- Multibeams red laser (available in red and green) – **DO108002**
- 3 beams red laser – **DO108018**
- Kit geometric optics – **DO108022**

EXPERIMENTS

Eye study with multibeams red laser and magnetic board

Packaging in individual box
