

DO110020

Mirror for reflection refraction

Plane mirror to study reflection.

School level

Senior high school.

Technical features

- Plane mirror 80x20 mm
- On black angle bracket support
- 2 screw locations to fix accessories
- Dimensions: 200 x 20 x 20 mm
- Weight: 70 g.
- Packaging: individual.

Product advantages

- **Mirror included in the reflection refraction kit.**
- Reflection refraction study **on HARTL disk.**

Examples of experiments

- Study of reflection.

Associated products

- Semi cylindrical lens – **DO110011**
- Semi cylindrical graduated tank – **DO110006**
- HARTL disk – **DO110019**
- Kit reflection refraction - **DO110005**
- Light source for reflection refraction - **DO105008**
- Laser TRIO rouge (available in green) - **DO108015**
- Multi beams laser red and green - **DO108017**

Reflection study with the kit and TRIO green laser
