

DO106044

Optics magnetic board

Magnetic graduated board for optics experiments.

School level

Senior high schools and higher education.

Technical features

White erasable magnetic board
Grid pattern graduated in cm
4 adjustment feet on horizontal position
2 supporting feet on vertical position
Supporting feet removable and magnetic
Dimensions: 600 x 400 mm
Supporting feet: 300 x 200 mm
Weight: 3.800 Kg

Product advantages

- **Vertical and horizontal position:** removable feet.
- **High precision with the cm graduation.**
- **High magnetic power and resistance.**
- **Easy delivery:** magnetic feet.
- **Possible use in MECHANICS.**

Experiments

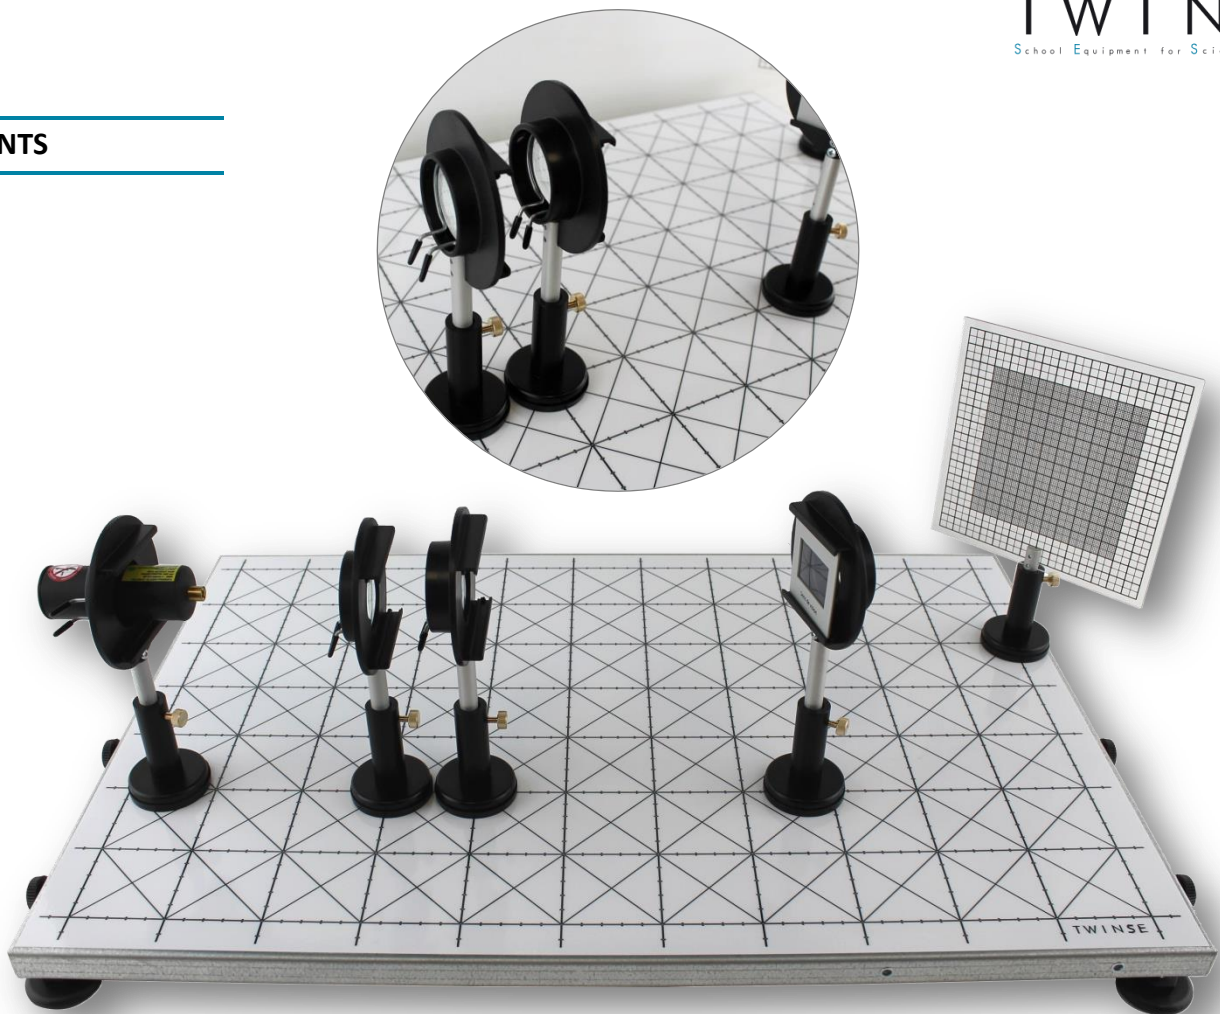

- Focometry study.
- Diffraction study.

Associated products

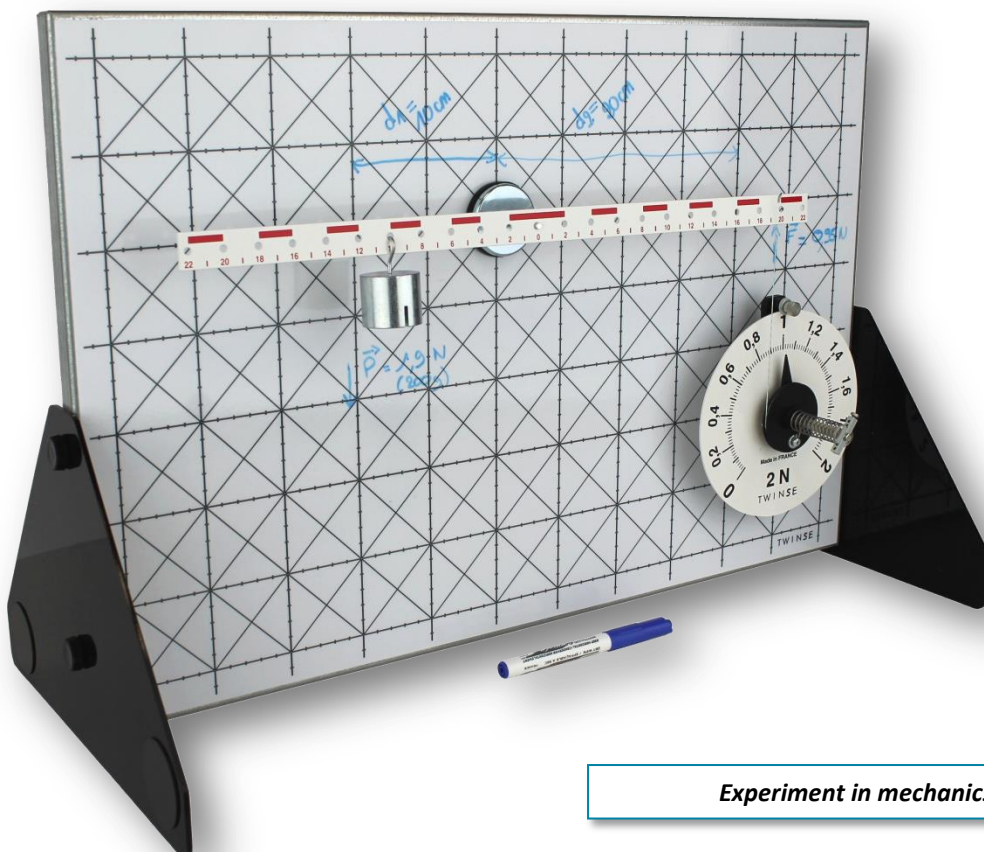

Magnetic holder for optics magnetic board – **DO106045**
Lens-slide holder SENIOR – **DO107010**
Green token laser (available in red) - **DO108026**
SENIOR screen - **DO130004**

EXPERIMENTS

Hologram experiment with green token laser and magnetic holders

Experiment in mechanics statics
