## PRISMATIC sliding holders 50 and 100

Sliding supports for optics accessories.

### School level

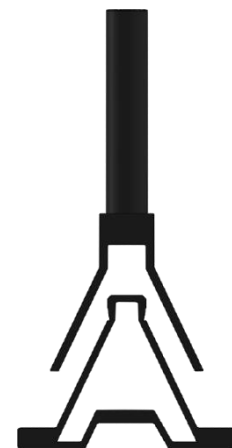

Senior high school.

### Technical features

Aluminium sliding holders with small column for rod  $\varnothing 10$   
 1 brass clamping screw on bench  
 1 brass clamping screw on small column  
 2 lengths available (50 and 100mm)  
 Positioning index for direct lecture  
 Dimensions: 50 (100) x 57 x 140 mm  
 Weight: 110 g (lg 50) - 190 g (lg 100)  
 Packaging: individual.

### Product advantages

- One of the **best price-quality ratio** in the range.
- **Easy sliding** by pads.
- Clung holder for an **excellent lining up on the optical axis**.

*Use on PRISMATIC optics bench*

### Examples of experiments

- Focometry (measure of a focal distance).
- Light diffraction.
