

DO116006

Spectroscope metal with tank

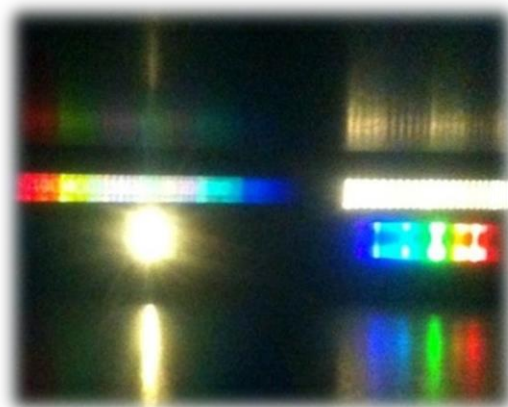

Manual spectroscope to read wavelength.

School level

Senior high school.

Technical features

Metallic black model
Tank and removable support
Aluminium anodised eyepiece
Grating 530 Tr.
Graduation of wavelengths integrated
Slit width: 0,5mm
Correlation table of chemicals integrated
Dimensions: 120 x 200 x 25 mm
Weight: 520 g
Packaging: individual box.

Student vision

Product advantages

- **Experiments optimised:** different possible experiments with the tanks.
- **Direct vision** of wavelength scale.
- Correlation table **available in all languages**.

Examples of experiments

- Spectrometry.
- Spectre absorption by liquids.

Associated products

Double power supply for spectral lamps - **DE100004**
Graduated flat spectroscope – **DO116002**
