PETROJET

PETROJET company profile

Incepted in Egypt in 1975, Petrojet ranks today amongst the largest full service construction groups across the Middle East and Africa.

The company utilizes its workforce of 30,000 engineers, technicians and labor and its large fleet of modern construction equipment to provide integrated EPC services to the Hydrocarbon, Power, Industrial and Infrastructure Sectors.

Additionally, Petrojet owns 5 process equipment fabrication workshops, and 2 Marine Fabrication Yards, and two Pipe Coating facilities.

FIELD OF ACTIVITIES:

Major Civil, Building & Infrastructure Works.

Mechanical Works.

Electrical & Instrumentation Works.

Trunk Pipelines.

Tank Farms.

Process Equipment Fabrication.

Pipe Coating.

Fabrication of Offshore Platforms & Deep Water Structures.

PAST PERFORMANCE:

Petrojet reference list is full of outstanding achievements executing over 1,500 Projects.

Construction of 140 Process plants.

Fabrication and Erection of 260,000 tons of Steel Storage Tanks (Cylindrical, Spherical and Cryogenic).

Laying of 25,000 kilometers of trunk Onshore Pipelines with Pipe Diameters up to 66 inch.

5'000'000 m³ of poured concrete, for Civil & Building Works.

Fabrication and supply of 1,400 units of Process Equipment.

Fabrication of 200,000 tons of Various Offshore & Deep Water Structures.

22,000,000 m² of pipe coating (concrete, polyethylene, polypropylene and polyurethane).

DIFFERENTIATORS:

Petrojet prides itself as being a one-stop-shop to its clients. This is clear from diversity and wide spectrum of activities rendered by the company.

A strong edge is that PETROJET owns a large fleet of modern construction plant and equipment to cover the wide range of diversified activities provided. This fleet that is easily maneuvered and mobilized to Petrojet's work sites across the Middle East and North Africa.

Petrojet is committed to maximize the involvement of local companies (subcontractors and vendors), in addition to the employment and hiring of national citizens in its operations thus supporting the technology transfer and economic development of the communities in which it operates.

BAVARIA EGYPT

BAVARIA®

Fire Fighting Solutions

OVERVIEW

The roots of Bavaria go back to 1923, when Bavaria Feuerlöscher-Apparatebau was first established in Falkenstein, Germany. The objective of the company was to manufacture quality firefighting equipment and supply safety at a time of great need. Bavaria with its old heritage is the second oldest fire extinguisher manufacturer in Germany.

Many years later, with a vision of globalization that was ahead of its time, Bavaria Egypt stock company was established in 1971 as an Egyptian German joint venture. Bavaria Egypt's main objective has always been to provide innovative, reliable and sustainable high quality fire fighting products to meet the current and future market demands, providing safety to individuals and the society at large.

In 1999, both companies merged together under one holding company; Bavaria Holding and thus expanding turf on both the national and international levels. Features of the benefits reaped are quite numerous including the integration of their market strategies, product packages, the combination of the production facilities in Germany and Egypt as well as the endorsed experiences, research and development activities.

BAVARIA HOLDING has other subsidiaries like Bavaria Free-Zone that is specialized in logistics and free zone operations and Bavaria Alarm, a turnkey provider for automated alarm and fixed fire fighting installations and systems.

Today, on the international level, BAVARIA HOLDING extends its market endeavors to many countries. Bavaria is directly present through its own subsidiaries in Lebanon and Sudan as well as being active in the European Union as well as in several other countries. Under the umbrella of its six companies Bavaria secures the supply of its wide range of products through 26 owned branches in 5 countries. This allows hands on reliable consultations, prompt supply, technical support, and after sale services. Thanks to its well-developed fleet of customer service vehicles that deliver high quality services on site to 50,000 contracted service customers and is committed to fulfilling their requests within 72-hours.

Bavaria is perhaps the largest producer in Africa, the Middle East, and Europe for cars' fire extinguishers with a capacity of up to several million fire extinguishers per annum.

Enppi

Welcome To Enppi

Enppi signifies a legacy of engineering expertise and proficiency that was built over decades of hands-on practice and learning. The company is renowned as an international, leading provider of fully integrated engineering, procurement, construction supervision and project management services for the petroleum, petrochemicals, power and other industries. Enppi is globally recognized as a major engineering, EPC main contractor, and management contractor, with decades of experience in onshore and offshore projects in the oil and gas, refining and petrochemical industries.

Engineering for the Petroleum & Process Industries (Enppi) was established on January 15, 1978 and is currently working under Egyptian Investment Law 8 for 1997, with a paid capital of 220 million US Dollars. The Egyptian General Petroleum Corporation (EGPC) is the principal shareholder owning 97% of the total shares of Enppi.

Past, Present & future

Enppi signifies a legacy of engineering expertise and proficiency that was built over decades of hands-on practice and learning. The company is renowned as an international, leading provider of fully integrated engineering, procurement, construction supervision and project management services for the petroleum, petrochemicals, power and other industries. Enppi is globally recognized as a major engineering, EPC main contractor, and management contractor, with decades of experience in onshore and offshore projects in the oil and gas, refining and petrochemical industries.

Enppi was established in 1978 on the solid basis and knowhow of CF Braun Engineering and has since that time grown and expanded to become the trusted name of choice in the oil and gas industry across the entire region. Headquartered in Cairo, Egypt, Enppi branches and offices are spread in more than 15 countries around the world, with avid expansion plans being implemented with every passing year.

Enppi
1978-2018

The main and most important asset in Enppi is its engineers. Enppi engineers are known for their invaluable expertise and knowhow, and their proficient work conduct is what makes the company's name a world renowned one. At Enppi, we are committed to retaining our engineering experts and talents by providing them with the work environment and support they require to thrive.

Enppi holds a long and pride-worthy track record of success stories in engineering projects that can be mapped across the globe. Our accumulated experience in engineering solutions is the cornerstone of our global reach, and the Enppi name is now internationally recognizable as a professional, efficient and trusted partner.
