Dear Business Owner,

I am pleased to inform you that you have been nominated by one of your customers, Sathaqatullah, for possible inclusion into the Top Ten Percent or they've publically made positive comments about your company, which also makes you eligible for possible inclusion. In today's environment, it seems that more people will take the time to complain rather than compliment, so the fact that your customer made it a priority to submit this nomination says a great deal about your company.

The Top Ten Percent is a collective of consumer-nominated businesses in the Long Island area that have been selected as being in the top 10% of their industry. To reward these businesses for their exceptional work, we've developed this recognition program. There is neither a fee nor obligation to be honored as a Top Ten Percent Award Winner.

A representative from our selection committee will be stopping by your office in the near future to discuss additional details and to conduct an assessment interview to complete our evaluation.

My sincere congratulations on your nomination; being nominated for the Top Ten Percent is an honor in itself.

Respectfully yours,

Stephen Mellis
